TETRIS PHARMA LAUNCHES OGLUO® IN DENMARK AND NORWAY

A new treatment option for severe hypoglycaemia for children and adults living with diabetes

Launches build on continued roll out in Austria, Germany and the UK

Cambridge, UK, 15 May 2023: Arecor Therapeutics plc (AIM: AREC), the biopharmaceutical company advancing today's therapies to enable healthier lives, announces that subsidiary company, Tetris Pharma Ltd, has today launched Ogluo® (glucagon prefilled autoinjector pen) in Denmark and Norway as a treatment for severe hypoglycaemia in adults, adolescents, and children aged two years and over living with diabetes mellitus.

See full Tetris Pharma announcement below:

15 May 2023 - Tetris Pharma Ltd ("Tetris Pharma" or "the Company"), a subsidiary of biopharmaceutical company, Arecor Therapeutics plc (AIM: AREC), today announces the launch of Ogluo® (glucagon prefilled autoinjector pen) in Denmark and Norway as a treatment for severe hypoglycaemia in adults, adolescents, and children aged two years and over living with diabetes mellitus.

Ogluo® is a ready-to-use, ambiently stored, preparation of glucagon in an auto-injector for patients within the licenced indication living with diabetes suffering from severe hypoglycaemia¹. Hypoglycaemia is a common and serious complication of diabetes, particularly affecting people with diabetes on insulin treatment. It is characterised by abnormally low blood sugar levels, which can lead to cognitive impairment and in some severe cases, seizures, loss of consciousness, coma and even death. It can have a profound effect on the everyday lives of people with diabetes and their caregivers².

Ogluo® pricing has today been published in both Denmark and Norway allowing patients to access this rescue medication, full prescribing information can be found [here](#). Ogluo® is also available in Austria, Germany and the UK. Tetris Pharma is working to commercialise Ogluo® in core European markets as part of a pan-European commercialisation programme.

Dr Shafiq Choudhary, European Managing Director of Tetris Pharma said: "With over half a million people estimated to be living with diabetes in Denmark and Norway alone³, the launch of Ogluo® gives patients living with diabetes an alternative ready to use, ambient stored glucagon that can be kept by the patients' side, giving their families and those around them the confidence to manage severe hypoglycaemic events. The launch extends our commercial footprint and pan-European presence."
